FIX LIST

Critical **Replace hero photo.** Currently an interior shot. Move the pool-at-sunset image to position 1 — every comp above you leads with pool or view.

Critical **Rewrite title.** "Cozy Berawa Home" omits the two terms guests filter and search for: private pool and Echo Beach proximity. See rewrite below.

Critical **Address WiFi complaints.** 2 of last 8 reviews mention slow WiFi. Fix the connection, then note "fibre WiFi" in amenities — it's now a recurring rating drag.

High **Rewrite description opening.** First line lists bedrooms. Lead with the experience — pool, privacy, walk to Echo Beach. See rewrite below.

High **Add 6+ photos.** 14 photos vs comp average of 26. Missing: night pool, bathroom, kitchen, and a Berawa-area shot.

Medium **List 2 filtered amenities.** Comps list "dedicated workspace" and "AC in all bedrooms" — you have both but they're not tagged. Guests filter on these.
